

WOMEN HACKS PRESENTS

Google Summer of Code

A Session by Ria Bhatia

A teal-colored triangle is located in the top-left corner of the slide, pointing towards the center.

WHAT IS GSOC ? HOW IT WORKS?

WHAT IS OPEN SOURCE?

HOW CAN I APPLY?

01

Choose an
Organisation

02

Choose a
Project

03

Get in touch
with
community

04

Prepare your
project
proposal

WHAT ARE THE DEADLINES?

Here is a short list of the most important dates for your application:

February 12

List of accepted mentoring organizations published.

February 12 – March 12

Potential student participants discuss application ideas with mentoring organizations.

March 12 – March 27

Student application period.

April 23

Accepted student proposals announced.

**WHAT WILL I GET
OUT OF IT?**

LEARNING

NETWORKING

STIPEND

A

OK, BUT AM I GOOD ENOUGH?

Do you have some programming experience at the university level? Then, yes, you are good enough! No, you don't need to be a Computer Science or IT major. Students from all subject areas are successful GSoC students.

Pro Tip: Don't be afraid to apply to projects where you only meet 51% of the listed requirements. Include a section on how you'll compensate for or learn the missing skills - and demonstrate during the application process that you are working on acquiring those new skills. Choose projects which you find to be interesting.
