# WHAT WE WILL DISCUSS TODAY?

1. APPLICATION PROCESS
2. INTERVIEW
3. RESUME TIPS

# THE SCHOLARSHIP APPLICATION

# UNDERSTAND THE OBJECTIVE

A group of female undergraduates & graduates will be chosen from the applicant pool and scholarships will be awarded based on each candidate's impact on diversity,demonstrated leadership and academic background

# TIPS FOR ESSAY QUESTIONS

## USE IMAGES

## USE HYPERTEXT LINKS

## EXPLAIN YOUR ARGUMENT USING ABOVE TWO

## GET APPLICATION REVIEWED

Question 1-
How do you think computer science, computer engineering and/or a closely related technical field is changing the world? How do you plan to contribute?

Question 2-
Please discuss the structural issues impacting underrepresented groups that you have observed or experienced in computer science, computer engineering, and/or a closely related technical field. What connection and/or effect do you think these have to the industry and/or the wider world?

## Question 3-

Please write about an activity that you are currently or recently involved in to address structural issues for underrepresented groups in your field.

You should:

• Explain your role in that activity, and its reach and target audience.

• Describe any formal support you have for your activity, for example from your university, school or other entity.

• If you have been involved in multiple activities, please make sure they are all listed in your resume, then choose the most relevant one to discuss in detail here.

# THE INTERVIEW

1. 40-45 mins telephonic interview
2. Prepare your projects well
3. Questions like how will you use google's resources to encourage more women/
your current initiatives

# ADVERTISE YOURSELF

# BE HONEST!

# RESUME TIPS

1. Projects- Tell them about the impact

2. Explain your non technical & extracurricular achievements

3. One page design

" The highest calling of leadership is to unlock the potential of others."
